

## CertiFile: Free for Courts. Easy for Defendants.

Powered by Tyler Technologies, defendants can easily provide proof of completing a successful driving safety course electronically. Documents are submitted securely and instantly for a smoother, more efficient process for both courts and defendants.

With Tyler's industry experience and market-leading user-focused design, CertiFile™ offers advanced functionality that's convenient and easy to use.

Today, four different driving safety course providers are using CertiFile to help students quickly and easily return completion certificates to the courts, including: Comedy Driving®, Comedy Defensive Driving®, Comedy Safe Driver, and ExpressLane™ Defensive Driving.

### Trying to reduce paper? CertiFile can help.

Documents are automatically downloaded and stored in the court's document management system or server. There is no need to scan or save paper copies — the work is done for you!

### Shorten the lines.

By eliminating the need for defendants to make a court visit to turn in completion certificates and driving records, CertiFile can reduce your foot traffic by hundreds of people per year.

### Which courses offer CertiFile?

- Comedy Driving
- Comedy Defensive Driving
- Comedy Safe Driver
- ExpressLane Defensive Driving

### Why should you accept e-filed certificates?

- Process traffic citation dismissals and file driving safety course certificates of completion in a fraction of the time
- No cost to your court
- Eliminate hundreds of unnecessary visits to your court each year
- TDLR-approved e-filing process
- Save on paper costs

### E-filing is easy to implement and even easier to use!

San Antonio, Arlington, Conroe, and many other courts throughout Texas are already streamlining their day-to-day operations by offering e-filing.

To get started, contact

**“Instead of a steady stream of people coming in to close out their defensive driving, we actually have very few people come in because so many are using e-file. It has been a great convenience not just for our customers but for us as well. It goes so smooth — it is amazing! Everything is much faster and the customers really appreciate the service.”**

- Linda Rose,  
Universal City Municipal Court

**“Our customers love that they can request [defensive driving] electronically, pay for it electronically, and it is filed electronically. Plus, we have an electronic record that helps us to have a redundancy in our filing system.”**

-Tammy Odom,  
Texas City Municipal Court
